

## B I G G I E

*Small in size, big on sound!*

Introducing the latest addition to our lifestyle Högtalare series: the BIGGIE - combining precision craftsmanship with powerful sound. Despite its name, the BIGGIE is a small, portable wireless hi-fi speaker that measures only 18×18 cm (7×7 inches). This little speaker takes after its larger sibling's (Högtalare) modern square design and packs a powerful punch with its tremendous depth of sound that promises to leave you in awe. The BIGGIE uses customized DSP technology to optimize sound quality, with Morel's dynamic EQ that adjusts based on volume for a balanced, natural sound free from distortion and coloration. With Bluetooth 5.3 BLE technology, the BIGGIE offers a wireless portable range of up to 50 meters (165 ft) and uninterrupted listening. It supports TWS pairing and multi-speaker connection (available later this year via App release) for a stereo soundstage. Plus, with up to 20 hours of battery life, you can enjoy music all day.

The BIGGIE's compact size and sleek, modern design seamlessly fit into any home décor. With a leather-like handle, it's easy to move around, while its nine chic finishes add a touch of personality to your audio experience.
