

PERFORMANCE SENSUS

Designed for true music lovers, the Sensus 62 and 63 deliver hi-fi quality with best-in-class performance at an accessible price. Featuring Morel's handcrafted soft dome tweeters, these speakers offer unmatched transparency and detail. The 3.5-inch midrange driver expands the soundstage and enhances tonal depth, while the dynamic 6.5-inch mid-woofer reproduces bass with precision. Whether you're an audiophile or simply enjoy great sound, the Sensus series will transform your listening experience and bring your favorite music to life.

Key advantages

- 2-way and 3-way speaker configuration
- Morel's UNIFLOW™ Die-Cast aluminum chassis for durability and improved bass response
- Morel's 28mm (1.1") soft dome handcrafted tweeter
- Oversized voice coil construction for high power handling, low distortion
- Damped Polypropylene Composite (DPC) cone for natural sound reproduction
- MXR high-quality crossover with +3/0dB tweeter attenuation
- High-end sound at an affordable price
